Skimboards  
Reinvent  
Two Thousand Nine

A photograph of a surfer with long hair, shirtless, wearing patterned shorts, riding a yellow skimboard on a wave. The surfer is in a crouched, balanced position, leaning forward with arms extended. The wave is breaking, creating white foam. The background is a bright, overcast sky.

{ THIS IS THE SOUL OF SKIMMING  
{ THIS IS VICTORIA SKIMBOARDS

Victoria  
Skimboards  
Reinvent  
Two Thousand Nine

Started in 1976 by Tex Haines and Peter Prietto, Victoria Skimboards (VS) is the most authentic and innovative skimboard company in the world today. We have dominated the market for over 30 years, which in today's world of pop up companies and slick marketing is an amazing feat. Starting with the elongated wood board shapes of the late 60's and 70's, VS progressively refined board shapes, introduced rocker, introduced the first foam core boards in 1980, developed the first regular use of the high tech polyvinyl foam, and refined the vacuum bagging techniques used by the vast majority of the industry today.

Today we continue to "Reinvent" our product and processes to higher levels of sophistication and performance. Our team of verifiably the best riders in the world is one of the keys to our skimboard quality. What the riders get in their boards, you get in your board. What I learned as a kid at age 11 skimboarding on Victoria Beach in Laguna Beach, California and everything to this very day is incorporated into your board. Your board will have an extremely refined shape, balanced rocker, detailed rails, and be absolutely the best board on the market for the best price. Victoria Skimboards ..... "No-Ka-Oi" ..... Nothing Is Better. That is our promise to you, from everyone at Victoria.

## GRINDER

The ultimate wood board for Flatland is better than before. An improved Birch core for durability and pop. The Grinder's sturdy Epoxy bottom is built to slide rails with ease. Twin tip allows for switch riding while the textured top gives you better board grip. Introducing new colors, the Grinder is ready for any level rider to throw down on the rail!

color options

## MATRIX

Evolution of Flatland = the Matrix. Delivering control, pop, and responsiveness in one package, the Matrix is the pioneer for all Flatland progression. Built with three-stage rocker, you can now mix up your line and style. Composite construction allows for ollies and tricks in deep water while Epoxy resin adds stiffness and strength for rail riding. Complete with full traction, stick everything with the Matrix.

## WOODY

It all begins with the Woody. Perfect for the beginning skimboarder, the Woody is a mix of durability, strength, and stealth. A long cruise down the shoreline or a glide across the river bank, the wood core, Polyester resin, and fiberglass construction will not let you down. Begin with the original wood board that helped create the industry, use the Woody.

## WOMBAT

The Wombat is back with a vengeance. With a re-designed squash tail shape for 2009, the Wombat uses Triple Threat Technology™ merging the line between skimboard, bodyboard, and surfboard. A two inch thick deck offers superior float on the wake or shorebreak while the soft rails offer peace of mind. The Wombat is ready to take you where you want to go.

## FOAMIE

The revolution continues as the most approachable board for the skimboarder starting to ride waves returns with new designs. Equipped with advanced materials at an entry level price, the Foamie crushes the competition. Wider and sturdier for learning the basics, the Foamie makes the transition from shoreline trepidation to water domination a breeze.

\*available in spring 2009

additional color options available

## ULTRA

With the basics mastered, it is time for progression. Enter the Ultra. The perfect board for the intermediate rider, the Ultra gives a professional shape allowing for quicker turns on heavier waves. An affordable board that responds to the rider while remaining stable and powerful in all conditions. High end performance at an affordable price, you have the Ultra.

## PLANE WRAP EX

The Plane Wrap EX is the ride that every break has and every local knows. The glide, the slash, the carve, the pocket, it's the ride that cameras fight over and girls talk about. Dynamic Rocker Technology™ for control, Epoxy resin for pop, textured finish for grip/weight reduction, and 5/8" Divinycell foam core for tum flex, the Plane Wrap EX is that ride.

## POLY

The Poly holds up to the power and pressure of any situation. Responsive, light, durable, and strong, the Poly is an agile board with maximum control. Complete with 3/4" divinycell core, nose/tail taper, fiberglass construction, and a high-gloss finish, the Poly will respond to the challenge of slashing and stomping the most aggressive waves. A team favorite, the Poly finds and conquers.

Two Thousand

## FACTOR

A lightweight 5/8" polyurethane foam core, detailed rocker for perfect carving of the wake face, and powerful edge-to-edge control for dynamic pop from one turn to the next make the Factor perfect for snapping airs or cranking a bottom turn. Standard with a low profile Rain-bow fin for extra drive and control and traction top for grip and support.

## FACTOR PCX

The Factor PCX keeps the drive and feel oriented around having fun, but possesses power and responsiveness to handle the progression of wake skimboarding. A 3/4" Divinycell foam core, Vinylster resin, and Carbon fiberglass provide stiffness, light weight, and attentively responsive performance. Standard with a low profile Rainbow fin for extra drive and control and traction top for grip.

## BRANDON ROTHE PRO MODEL

From inside the inventive mind of the most stylish skimboarder in the sport comes the Brandon Rothe Pro Model. Constructed with Vinylester resin and Carbon, the board is light and responsive. The boxy rails and blunted nose/tail make the board perfect for surfing long liners and sticking high speed technical maneuvers. Perform with personal style.

bottom

## TEX HAINES PRO MODEL

Founder of Victoria Skimboards, Tex Haines brings a classic fish shape with extra width for carry back in 2009. With a shorten 5/8" divinycell foam core, swallow tail for leverage in turns, E-glass, Polyester resin, parallel rails for carving any wave, and a textured deck for grip, the TH Pro Model is speedy yet stable. The legend has spoken.

top

bottom

## BILL BRYAN PRO MODEL

2008 UST champion, Bill Bryan rides the best. A 1.75" nose rocker for carry, Polyester resin for feel, Carbon fiberglass for punch, 3/4" divinycell foam core for snap, no gloss finish for weight reduction, and detailed rails for edge-to-edge acceleration, the Beaker Pro Model is now the perfect extension of your body. With new artwork for 2009, you are ready.

top

bottom

## MORGAN JUST PRO MODEL

The air is thinner up here... The 2009 MJ Pro Model delivers precision pop on the wave or in the air. With a featherweight 3/4" divinycell foam core for weight reduction and strength, Carbon fiberglass for stiffness/burst, 1.75" nose rocker for drive, Polyester resin for snap, and precision tapered rails for edge control, Morgan dominates the water and so can you.

POLY & ULTRA: STOCK ART OPTIONS

STOCK COLORS

-  White
-  Gray
-  Yellow
-  Lime Green
-  Green
-  Dark Blue
-  Cyan
-  Red
-  Orange

RAIL OPTIONS

-  **Boxy:** Steep wall rail design used for speed and snappy response.
-  **Hybrid:** The best of both worlds, designed for good speed and deep carving
-  **Tapered:** Low profile rails are designed for maximum bite on the most demanding waves

CLOTH AND RESIN OPTIONS

-  **Epoxy Resin:** Frequently used with Carbon fiber boards, Epoxy offers maximum ding resistant with a softer flex.
-  **Vinylester Resin:** Improved stiffness and weight reduction.
-  **Polyester Resin:** Standard in VS boards, the most affordable stiff resin on the market.
-  **Carbon Fiberglass:** Extremely strong and stiff. Top of the line.
-  **S-Fiberglass:** Structural fiberglass which is 30% stronger than e-glass and almost 15% stiffer.
-  **E-Fiberglass:** The most common fiberglass on the market offering great performance at an economic price.

TAIL SHAPE OPTIONS

-  **Standard:** Stock on all boards, designed for control and greater surface area on the water
-  **Swallow:** Old School inspired shaping, preferred by legends like Tex Haines
-  **Squash:** Surf inspired tail design is great for a looser style of wave riding
-  **Pin:** Very similar to the shape of the nose of a board, used for a deep gouging style of riding
