

VICTORIA 2011

## Accomplishments for 2010

Bill Bryan United Skim Tour (UST) Champion 2010 for the third straight year.

Vic team still holding on to top ranking.

First ever Women's Pro event at the Victoria Skimboards World Championship of Skimboarding (WCS) Contest 2010.

34th Annual Victoria WCS Contest live internet video stream, a HUGE first which we hope you enjoyed.

## Innovations for 2011

Vastly improved Ultra with a stronger and lighter core. Oven cured epoxy boards are now lighter and stronger.

All new art for a wide range of skimboard styles.

Softer middle section rails on all board bottoms for fewer glitches in planing and turning.

Extra fine sanded top rails on all boards.

Woody Model with classic shape is back.

All new Slider Model for Flatland or the beach.

Redesigned shipping boxes lower the cost to ship.

Expanding on the live internet video stream of the WCS.

Victoria Skimboards started the revolution back in 1976 and has been innovating ever since. No other company has made anywhere near the number of innovations that Victoria has. We are simply the best in what ever price range you have in mind. Victoria skimboards are guaranteed to last longer, ride better, and have the best customer service on the planet today. Relentless dedication to improvement on a daily basis is our promise to you. What I learned as a kid skimboarding at Vic and everything learned from our team riders, customers and countless consultants over time is incorporated into every skimboard we make. Victoria Skimboards is named after the generations of skimboarders that came before us at Victoria Beach, a small cove in Laguna Beach, California.

# WOODY

The Woody is for beginners who want to try the sport. Great for learning how to run, jump on, slide far, and bash small waves. This is the board we all learned on as kids and the tough fiberglass bottom will hold it's shape and last for generations. Cheaper, pop out wood boards, will warp and will not slide unless perfectly flat which is a waste of your money. The Woody wave art is hand done on every board in the USA. Size tip; the rider should just be able to comfortably hold the board under his or her arm.

## TECHNICAL SPECS

**Core Material:** Hardwood

- durable on impact
- holds rocker over time

**Core Thickness:** 3/8"

**Resin:** Polyester

- resists sand abrasion

**Rails:** Soft, Boxy

**Shape:** New shape for 2011

- decreased length and added width to help the beginning rider

**Rocker:** Low for longer slide

**Finish:** Hand painted art finish with gloss

## SIZE CHART

Size	Suggested Weight	Dimensions
XS	30 - 85 lbs	35.2" x 17.8"
S	65 - 110 lbs	36.5" x 18.5"
M	110 - 140 lbs	38.1" x 19.3"
ML	130 - 160 lbs	39.7" x 20.1"
L	150 - 200 lbs	41.6" x 21.3"
XL	180 - 220 lbs	43.8" x 22.2"

# FOAMIE

For beginning to intermediate riders, the Foamie is the best value foam core skimboard on the market today. The Foamie is strong, durable, and has an excellent wave riding shape. The 7 lb. density, 5/8" thick polyurethane core with epoxy fiberglass wrap and plastic bottom means this board is practically unbreakable. Foam core boards are 20% larger and lighter than equivalent wood core boards and many beginning wave riders choose to skip over the Woody Model and go right to the Foamie Model instead. A great choice if you're serious about learning to skimboard.

Art available only on size Medium and Large boards while supplies last.

## TECHNICAL SPECS

**Core Material:** Polyurethane

**Core Thickness:** 5/8" untapered

**Fiberglass:** E-glass

- industry standard fiberglass with low weight and great strength properties

**Resin:** Epoxy

- stiff, durable, and lightweight resin

**Rails:** Hybrid

**Shape:** Modified wave riding with rounded pin tail

**Rocker:** Mid

**Finish:** Gloss

M	110 - 150 lbs	48.0" x 20.0"
L	140 - 190 lbs	49.5" x 21.0"

# GROMMET

The Grommet is a pro style board (light) at an amazingly low price for the youngest rippers. This is one hot little board! Low swing weight also makes it great for technical tricks like shuv-its and airs. One size only and stocked in a limited color supply.

Also available in WAKE model (visit [victoriaskimboards.com](http://victoriaskimboards.com)).

ONE	70 - 100 lbs	44.5" x 17.0"

# ULTRA

Vastly improved for 2011, the Ultra is much lighter and stronger. What more could you want? The Ultra is a super affordable, very high performance board for intermediate riders that is perfect for these economic times. The Ultra utilizes the same shape and has slightly more flex than our high density models, if you are an intermediate rider this is your board.

Art options available (see Stock Art Options).

# BIGFOOT

Are you an intermediate rider over 180 pounds? The Bigfoot is the board for you. One step up from the Ultra, this board is engineered to handle the guys with bigger feet that put their board under heavy stress. Thicker and stronger (3/4" higher density foam than the Ultra (5/8" medium density foam) and named after our 6'4" manager in the 80's, Jeff 'Bigfoot' Smith, this board can take a pounding.

Limited colors available.

Art options available (see Stock Art Options).

Also available in WAKE models (visit victoriaskimboards.com).

## SIZE CHART

Size	Suggested Weight	Dimensions
ONE	170 - 230 lbs	56.7" x 21.5"

# POLY

The Poly model is the standard for performance skimboards designed for the advanced rider. With a tougher core for heavier/harder riders, tapered nose/tail for less weight, and lower profile nose for glide, the Poly is the high end board that will take your riding to the next level. Years of constant tweaking have created a very durable and reliable board allowing you to focus on your ride. Available in many sizes and options to fine tune the board to your riding conditions.

Art options available (see Stock Art Options).

XXL	180 - 230 lbs	57.9" x 22.0"

# PLANE WRAP EX

Built for the advanced rider, the Plane Wrap EX comes equipped with a 5/8" thick high density foam core. With a uniform nose to tail core thickness, the Plane Wrap EX is designed to flex slightly under the riders stance. What we call Dynamic Rocker Technology, is simply another feel altogether. Wide stance flattens the board for distance, narrowing that stance offers control during wraps. Lighter due to it's thinner core and epoxy resin, it is a sweet ride for the rider who can adjust his or her feet.

## COLOR

## TECHNICAL SPECS

**Core Material:** PVC high density  
**Core Thickness:** 5/8" untapered  
**Fiberglass:** E-glass  
 - industry standard fiberglass with low weight and great strength properties

M	130 - 180 lbs	52.7" x 20.0"
ML	140 - 190 lbs	54.0" x 20.5"
L	150 - 210 lbs	55.2" x 21.0"
XL	170 - 220 lbs	56.7" x 21.5"
XXL	180 - 230 lbs	57.9" x 22.0"

# TEX HAINES PRO MODEL

Brought back by Tyler Palmer and adopted by Tex Haines, this is one of the classic shapes equivalent to surfing's fish shapes that are currently in a comeback. Shorter length for turnability, wider middle and tail increases the planing surface for distance, and a swallow tail provides control in the turns. It works for me.

## TECHNICAL SPECS

**Core Material:** PVC high density  
**Core Thickness:** 3/4" tapered  
**Fiberglass:** E-glass  
 - industry standard fiberglass with low weight and great strength properties  
**Resin:** Polyester  
 - industry standard, affordable, and stiff  
**Rails:** Boxy  
**Shape:** Fish  
 - swallow tail and wings for leverage in turns  
 - tapered nose/tail for turning speed  
 - wider body for carry over water  
**Rocker:** Mid  
 - no tail rocker  
**Finish:** Light weight finish  
 - resin art included

## SIZE CHART

Size	Suggested Weight	Dimensions
S	100 - 150 lbs	50.0" x 20.7"
M	130 - 180 lbs	51.2" x 21.2"
L	160 - 210 lbs	55.7" x 21.0"

BOTTOM ART

# POLY CARBON

The Poly model with Carbon fiberglass gives the advanced to expert rider added stiffness for pumping out to waves and flexing less in turns. Whether technical tricks or connecting side wash at the Wedge, the Poly Carbon has the speed, turning power, and stability to take the "standard" to the next level. Preferred by professionals everywhere, you cannot go wrong with the Poly Carbon.

Art options available (see Stock Art Options).

## TECHNICAL SPECS

**Core Material:** PVC high density  
**Core Thickness:** 3/4" tapered  
**Fiberglass:** Carbon  
 - stiff and light in weight  
**Resin:** Polyester  
 - affordable, stiff, and proven over many years of use  
 - Vinylester and Epoxy options available  
**Rails:** Hybrid  
**Shape:** Wave riding shape with rounded pin tail and tapered nose/tail

ML	140 - 190 lbs	54.0" x 20.5"
L	150 - 210 lbs	55.2" x 21.0"
XL	170 - 220 lbs	56.7" x 21.5"
XXL	180 - 230 lbs	57.9" x 22.0"

## COLOR

# PLANE WRAP EX CARBON

Combine the Plane Wrap EX with carbon fiber and you have a tough yet light weight board. The uniform 5/8" high density foam core with carbon fiber and epoxy resin is a killer combination and make for one of the lightest stock boards available. Dynamic Rocker adjustability, low swing weight for quick adjustments, and speed/control all in one board. Professional rider's added this board to their quiver and so should you.

## TECHNICAL SPECS

**Core Material:** PVC high density  
**Core Thickness:** 5/8" untapered  
**Fiberglass:** Carbon  
 - low weight and superior stiffness  
**Resin:** Epoxy  
 - great bond, light weight, stiff  
**Rails:** Hybrid

VICTORIA

# MORGAN JUST PRO MODEL

Morgan Just likes to go big, period. He rides almost daily with a technical style that puts him in extreme conditions. Morgan needs a board that is reliable and performs 100% of the time as he connects the side wash from 10th St. to the Wedge. He has that in the Morgan Just Pro Model. Perfect for technical tricks and drive on "heavy" waves, the slightly lower rocker offers speed for the advanced to expert rider to reach those far out waves.

Morgan's quiver consists of his pro model in size medium and his pro model in size medium small.

## TECHNICAL SPECS

- Core Material:** PVC high density
- Core Thickness:** 3/4" with tapered nose/tail
- Fiberglass:** Carbon
  - added stiffness and decreased weight
  - professional level glass with the lightest possible weight
- Resin:** Polyester
  - affordable and stiff
- Rails:** Low Taper
  - extremely responsive
- Shape:** Wave riding shape with rounded pin tail
  - Vic standard for wave riding and quick response in all conditions
- Rocker:** Low per Morgan's specifications (1.75" nose & 1/8" tail rocker)
- Finish:** Light weight finish

## SIZE CHART

Size	Suggested Weight	Dimensions
S	100 - 150 lbs	51.5" x 19.5"
MS	120 - 170 lbs	52.2" x 19.7"

L	160 - 210 lbs	55.7" x 21.0"

BOTTOM ART

# BILL BRYAN PRO MODEL

Bill Bryan is a World Champion that has been dominating the sport of skimboarding through his riding and video production for over the past 15 years. To keep that standard, Bill needs a world class board. Built light and stiff, the Bill Bryan Pro Model is for the advanced to expert rider. Designed to travel across the water while keeping your speed in order to reach larger waves and perform more technical maneuvers at more critical times, the Bill Bryan Pro Model has been proven to work on any wave around the globe.

Bill's quiver consists of his pro model in size medium small and his pro model in size medium.

## TECHNICAL SPECS

- Core Material:** PVC high density
- Core Thickness:** 3/4" with tapered nose/tail
- Fiberglass:** Carbon
  - added stiffness and decreased weight
  - professional level glass with the lightest possible weight
- Resin:** Epoxy
  - extra bond, softer flex, light in weight
- Rails:** Low/Mid Taper
  - extremely responsive with high speed holding power
- Shape:** Wave riding shape with rounded pin tail
  - Vic standard for wave riding and quick response in all conditions
- Rocker:** Low per Bill's specifications (1.75" nose & 1/8" tail rocker)
- Finish:** Light weight finish

## SIZE CHART

Size	Suggested Weight	Dimensions

# BRANDON ROTHE PRO MODEL

Brandon Rothe is a fluid and inventive skimboarder. He needs a board that is fluid in ride but also has the ability to pop technical tricks. The Brandon Rothe Pro Model is a mixture of toughness and finesse in one board. Designed so the advanced to expert rider can catch the "long liner" and stick highly advanced maneuvers, the Brandon Rothe Pro Model features custom artwork from Brandon Rothe himself. Enjoy yours today!

Brandon's quiver consists of his pro model in size medium and Poly size medium.

## TECHNICAL SPECS

**Core Material:** PVC high density

**Core Thickness:** 3/4" slight taper

**Fiberglass:** Carbon

- added stiffness and decreased weight
- professional level glass with the lightest possible weight

**Resin:** Vinylester

- very stiff and light in weight

**Rails:** Boxy with a taper toward the nose

- releases easily from the face of the wave

**Shape:** Wave riding shape, blunt nose, and rounded pin tail

**Rocker:** Mid per Brandon's specifications (2" nose and 1/8" tail)

**Finish:** Light weight finish

## SIZE CHART

BOTTOM ART

# MATTHIEU THIBAUD PRO MODEL

The debut year of the Matthieu Thibaud (Muchu) pro model board is finally here! Shaped by Muchu and ridden around the world, the board is a great new addition to our lineup. This is the board Muchu chooses to ride when the waves get heavy. Anywhere from Hossegor, France to pounding Aliso Beach to the heavy shorebreak in Melaque, Mexico, Muchu needs a board that turns fast and can hold an edge on the steepest face. The advanced rider now has the option to pull into the biggest barrel and trust the board to stay under their feet.

Matthieu Thibaud will be donating a portion of his board sales in 2011 to the "Heart of Sailing" Foundation which introduces children with cognitive impairment to the nautical world.

Matthieu's quiver consists of his pro model in size medium and his pro model with a 3/4" core in size medium.

## TECHNICAL SPECS

**Core Material:** PVC high density

**Core Thickness:** 5/8" untapered

**Fiberglass:** Carbon

- added stiffness and decreased weight
- professional level glass with the lightest possible weight

**Resin:** Vinylester

- very stiff and light in weight

**Rails:** Boxy with a slight taper toward the nose

**Shape:** Wave riding shape, blunt nose, and rounded pin tail

- more blunt nose than standard models

**Rocker:** Low per Matthieu's specifications (1.75" nose & 1/8" tail)

- added speed on the face of the wave

**Finish:** Sanded matte finish

## SIZE CHART

Size	Suggested Weight	Dimensions
S	100 - 150 lbs	51.5" x 19.7"
M	120 - 180 lbs	52.7" x 20.2"
L	160 - 210 lbs	55.7" x 21.2"

BOTTOM ART

# FACTOR

The Factor is a wake skimboard, designed to ride behind a boat. Excellent low swing weight for technical tricks yet stiff and strong for great acceleration. Refined by skimboarders for 34 years, it has the perfect rocker for great overall speed. Includes a removable fin for drive in the turns and/or stability in the wake. Complete with deck traction, the Factor gives all riders a crisp and responsive feel on the water.

Also available in squash tail/custom shape options.

## COLOR

## TECHNICAL SPECS

**Core Material:** PVC mid density  
**Core Thickness:** 5/8" untapered  
**Fiberglass:** E-glass  
- industry standard fiberglass with low weight and great strength properties  
**Resin:** Polyester  
- industry standard, affordable, and stiff  
**Rails:** Boxy  
**Shape:** Wake performance  
- lower rocker for sliding  
- shaped nose for control at the bottom of the wake  
**Rocker:** Mid  
**Finish:** Gloss  
**Misc:** Rainbow fin (6" long x 1.40" tall) & deck traction  
- thrust on the wake, turning control, and added grip

## SIZE CHART

Size	Suggested Weight	Dimensions
S	80 - 120 lbs	51.2" x 19.4"
M	100 - 160 lbs	53.4" x 20.2"
L	140 - 200 lbs	55.7" x 21.2"

# FACTOR PCX

The Factor PCX is a lightweight wake skimboard designed for the advanced to expert wake skimboarder looking to ride behind the boat and dominate. Equipped with Carbon fiberglass for added board stiffness and pop, lower rocker for a quicker slide, fin for extra drive in turns/stability on the wake, and complete deck traction, the Factor PCX is the perfect board for destroying the wake.

Also available in squash tail/custom shape options.

## COLOR

## TAIL OPTIONS

**Stock (Round Pin):** Designed for all around riding, balance of hold on the wave, and release on turns.

**Rounded:** Designed for wave riding, smooth turning, and holding on the face of weak waves.

**Swallow:** Loose turning with extra width on the tail which helps on weaker waves (slower turns on weak waves).

**Squash:** Added width in the tail to help with weak waves. Releases well on turns.

**Pin:** The best hold you can get on a steep face as it gives the maximum amount of rail.

PIN

## RAIL OPTIONS

**Boxy:** Releases easily from the face of the wave and is a more forgiving rail.

**Stock (Hybrid):** A mix of both worlds. Carries speed and carves well.

**Tapered:** Holds on the face of the wave, extremely responsive, and more sensitive.

## CORE OPTIONS

**5/8" Core Thickness:** Thinner, more flexible, and untapered.

**3/4" Core Thickness:** Thicker, stronger, and a tapered nose/tail.

**H-60 (Mid density):** Lower density with less weight.

**H-80 (High density):** Higher density with added toughness.

## CLOTH & RESIN OPTIONS

**Polyester Resin:** Standard in VS boards and good resistance to sand abrasion. The most affordable, stiff resin on the market.

**Vinylester Resin:** Improved stiffness and weight reduction. A great blend of Polyester and Epoxy characteristics.

**Epoxy Resin:** Maximum ding resistance, soft flex, and a very strong material bond for carbon boards.

**E-Fiberglass:** Vic and industry standard fiberglass with low weight and great strength properties.

**S-Fiberglass:** Lighter and stronger than e-fiberglass.

**Carbon Fiberglass:** Industry standard for the lightest and stiffest boards.

**T-SHIRT:** Densely knit, pre-shrunk, 100% fitted cotton. Sizes S - XL

**FITTED FLEX:**

Stretchable fabric sweatband, pro-baseball shape, wool blended cap with flat visor and puff Victoria embroidery.  
 Sizes:  
 S/M (6 7/8" - 7 1/4")  
 L/XL (7 1/4" - 7 5/8")

**ADJUSTABLE:**

6-panel, unstructured cap with sandwich visor, adjustable strap with antique rail buckle, and puff Victoria embroidery.  
 Sizes: ONE

**T-SHIRT:** Densely knit, pre-shrunk, 100% fitted cotton. Sizes S - XL

**SWEATSHIRT:** 80/20 polyester cotton mix, heavy weight. Sizes S - XXL

### COFFIN BAG:

Designed for the avid traveler. Two inner pockets and board straps, additional wall padding, reinforced zippers, padded shoulder strap, contact information holder, and handles. Perfect for multiple boards. Seven inches in depth.

Size: One

Dimensions:  
59.5" x 24" x 7"

### BOARD SOCK:

Stretchable terry cloth with draw string closure and cordura nose piece.

Size: S, M, L

### HELIX ARCH BAR:

Lightweight, 5mm tall rectangular arch, 20 inches long for maximum coverage.

### STANDARD BAG:

Designed for the daily traveler. Inner pocket, additional wall padding, reinforced zippers, padded shoulder strap, contact information holder, and handles. Four inches in depth.

Size: One

Dimensions:  
59.5" x 24" x 4"

### DVD:

Contact Victoria Skimboards for the latest and best selection of skimboarding DVDs available.

### CORVO:

Diamond groove pattern, built in 5mm tall rectangular arch and 25mm tail kick.

### VECTOR:

Diamond groove pattern, built in 5mm tall rectangular arch, and 19mm tail kick.
